Hello Cattle Enthusiasts

We would like to welcome you to the 2nd "Livin the Dream" Spring Edition. We are really excited about this set of cattle. We apologize for the delay in the catalog production. Between breeding cows and a really wet stretch of weather, it put us a bit behind. We are always focused on making the next generation and keeping our eye towards the future.

Once again, this set of cattle is a great cross section of our program. The popular cow families that have worked time and time again are well represented. Several breed leading sires that were raised here, have progeny that headline this offering. We focus on the basics of breeding functional cattle and then try to add the extras to that solid foundation.

The open heifer offering has some of the highest quality animals we have produced, and we think you will find some intriguing breeding pieces in that offering. They will be competitive show heifers, but more importantly, profitable in production. The bred heifer offering is STOUT! These girls pack a punch and whether you're building a program or are an existing breeder, they can contribute to your operation. Most sell bred to the calving ease specialist, Guardian. The bull offering is very diverse. A couple of the phenotypic standouts from the 2020 calf crop are offered here, as well as those power bulls with great growth numbers that will add pounds. You will notice several great carcass bulls in there as well. They will be semen checked and ready to turn out.

Please plan to join us April 24th or before if you can make it. Videos are available on all the animals if you cannot make it in person. If you have any questions, please feel free to give us a call and we will be happy to discuss the offering with you. Thanks for looking and we look forward to hearing from you!

Nate, Leslie, Creed & Parker Ruby

Cattleman.

It is with great pleasure that we welcome you to the "Livin' the Dream" Spring Edition Vol. II at Ruby Cattle Co. With spring in full swing, the new calf crop on the ground and crops going in the ground, it's hard not to be optimistic about new beginnings and the promises they bring. This year's bull market place has been steady and better than that of a year ago and substantial interest in SimGenetics has been noticed. Most places across the country are well blessed with Winter and Spring moisture and thus the demand for these pairs and bred females is as optimistic as it has been for some time. You're interested in the right program for these times if you're browsing this book and the information in it!

Nate Ruby is a truly great stockman, disciplined in his approach to fundamentals like feet, fertility, udder quality, testicle size, structure, and build. This prototypical combination that exemplifies the fundamentals of beef production has allowed this program to grow and flourish while maintaining a running cowherd with grit and longevity.

The cow families behind this program are proven in years of existence and that folks is what buys land and builds programs in any financial times we may be experiencing as a nation. Let's not forget about the data that is reported within this program, the contemporary and sire groups that back the information, and the genetic and numeric improvement the Ruby program has experienced by doing their due diligence. This is a well-rounded outfit with the same outlook, and knowledge or diversity that elevates their marketing.

This offering is highlighted by the fall open heifer calves that have created a stir on the internet over the past 4 or 5 years with record participation nation-wide from new and loyal customers alike. This group of cattle would be the deepest, densest quality set of opens ever offered for appraisal at 1170 Elk Street. The phenotype is backed by impressive genetics and numbers alike as Nate continues to forge the ideal look with trait leading prediction indicators. These girls are legit and fit for any progressive seedstock program or junior family.

The fall breds are the right kind as they always have been. They will be productive and adapt to any climate or environment that they are introduced in as they enter their productive years. A large portion of the females selling are safe in calf to CLRS Guardian 317G, the \$85,000 high seller from the 2020 "Bred for Balance" sale. The bull pen in the offering is loaded with talent and promise and comes at the right time of the year as breeding season is upon us. For those that did not get a bull bought in the early stages of the bull run or tested bulls and need to replace a herd sire this set will fit the bill for breeder or commercial interest for sure. Dense, surefooted, sound-built bulls that have passed their breeding soundness exam and are ready for immediate turnout!

April 24th weekend will mark this highlighted, much anticipated event, and could serve as that much needed getaway for Spring 2021. The sale will be on LiveAuctions.TV for real time online bidding. We are here to accommodate any and all interest, so don't hesitate to reach out to any of the sale resources. We sincerely thank you for your interest.

We sincerely thank you for your interest,

A series of handwritten signatures in black ink. From left to right, they appear to be: "J. Bl", "J. L. Sh", and "Anderson".

HEALTH

Bulls have been vaccinated under veterinary recommendations. All bulls have been tested negative for BVD. Sale vet will assist buyers on health status for specific states.

TERMS & CONDITIONS

All bulls sell under the terms and conditions of the American Simmental Association. Terms of sale are cash or check payable immediately upon conclusion of the sale and before animals will be removed.

INSURANCE

Insurance will be available through Jame Secondino of American Livestock Insurance, Ph. 812-208-0956.

RETAINED INTEREST

Ruby Cattle Co reserves 1/3 semen interest in all bulls selling unless otherwise noted.

EPDS

Please note that EPDs may change from the time the sale catalog is printed until registration paper is transferred. EPDs are Spring 2021 numbers.

RISK

Each animal becomes the risk of the purchaser as soon as sold. Animals purchased are at the purchaser's risk as to loss or injury, and will be loaded according to purchaser's direction. Insurance will be available sale day.

UPDATES AND SALE ORDER

Additional information and sale order can be found at the InnovationAgMarketing.com website and on their Facebook page.

ANNOUNCEMENTS

Announcements made sale day and from the auction block during the sale take precedence over printed material in the catalog or other printed material associated with this sale. Anyone attending this sale, attends at their own risk. Breeders or any of the sale force will not be held responsible for any injury while attending this sale.

LIABILITY

Neither owners nor sale management assume any liability for any accidents that may occur to the animal after it is sold. All persons who attend the sale do so at their own risk and owners or sale personnel assume no liability for accidents.

What a way to kick off this years offering! 4 full sisters stemming from one of the most predictable matings to date here in Murray. All 4 females offer some differences that will allow you to find your favorite, but the eye appeal and wow factor that these girls bring to the table is second to none. The lot 1 female combines that killer look with the softness, soundness, muscle shape that we are all after. She is great haired and will make a great senior yearling. If your serious about the business, step in here!

Balance and complete describe this one really well. Its really hard to poke a hole in this one. Soft, smooth, sound, and good looking. She will hunt!

RUBY/SWC GENTLEMAN`S JACK - Sire of Lots 1-4

The Influence of Rhythm

Lot 3 **RUBY NFF RHYTHM 0H57**

If you're looking for the ultimate wow factor, this one has it in spades. Cobra necked with great presence, this one has the shag and the power that will transform her next generation.

RUBY NFF RHYTHM 060H
Full Sister to Lots 1-4

RUBY NFF RHYTHM 086H
Full Sister to Lots 1-4

Lot 4 **RUBY NFF RHYTHM 0H40**

I realize this one has lots of white, lets just get that out of the way. I don't care if she was pink with purple polkadots, this is good cattle. Look through her color and I think you will agree, this may be the best 2124Z female produced to date, and thats a powerful statement. She won't be forgotten when she steps in the ring and when she is in your donor pen kicking out those high selling blaze faced females, you will be glad your the one cashing the checks. Don't overlook this one!

Whoa! This one has got the goods. Great looking, sound as a cat, stout made and good bodied. She puts it all together and she knows it! A full sister to the high selling open in our 2019 Fall sale to Shoal Creek, and a high selling bull selling to Shoal Creek and Purdue Beef unit. This mating has been rock solid and this is one of the best ones yet. Here is another one that can put you on the map.

RUBY'S CURRENCY 7134E - Sire of Lot 5

The Influence of Rhythm

Lot 6 **RUBY SWC RHYTHM 0H42**

Lots of things to love about this pair of Echo females. Big footed, loose made, extra body and outcross pedigree. The will be fun to show, but more importantly, their producing ability and mating flexibility is where they will really shine.

One of the freakiest females we have ever offered. I am serious when I tell you that I have never seen a female with the combination of look, power, and athleticism that this one has. I really don't know where she fits in as far as a show heifer goes as she is that far out there, but the one thing I know is she has value. This may one of the best breeding pieces we have ever let leave the farm because you can use her in so many different ways. Make sure you are the one with the final bid, I am sure you will be happy she's yours for years to come.

As complete as any female in the sale. Here is the full sister to the top selling bull in our sale in February. She's cool looking with extra foot, bone, muscle, and body. She will make a great junior project that will be a big time producer.

This Jack x Rosetta has been another flush that has flat out worked. The high selling female in last falls sale was a full sister to this mating and the 2 other flushmates were extremely nice as well. These 3 sisters are sure cut out of the same mold, they just come with different color configurations. They are great structured, first and foremost, and combine that with extra eye appeal, softness, angularity and maybe the most important ingredient of all is their dam. The 324A cow just works, she makes the good ones time after time that are sought after for show heifers and breeding pieces. You get to pick and choose, but they all sell, make sure one gets in your barn!

Lot 15 RUBYS ROSETTA OH107

This is the youngest female in the offering and one of the best. She has all the parts and pieces to be big time, all she needs is time. The combination of look, soundness, and stoutness is rivaled by very few. Note that she is the natural calf out of the 324A donor. The genetics here are better than most.

RUBY'S CURRENCY 7134E \$435,000 Sire to Lots 15 & 16

Lot 16 RUBYS RITA OH43

If you like them big footed, big legged and athletic, here is heifer to take a look at. Extra middle and extra dimension as well. She is a Currency back on an Absolut female. I have said that the Absolut cattle were ahead of their time in terms of body type, and that is why I think they are such good producers for us today.

Study this ones pedigree, and you will notice that this eye catcher goes back to the famed S600 female made famous at Foster Brothers that now resides at Hotz Farms. Here is a younger female, but she is very good in her lines and the parts and pieces are all here to make a really awesome Senior Yearling. This one's dam did a bunch of winning a couple summers back. She was a bit later maturing as well, but when she hit her stride, she made her presence known. Don't miss this one.

Here is full sister to very successful female campaigned by the Culpepper family of Texas a couple years back. Same cool look as her famous sister with a shot of added chrome. Here is one that is super complete that will be a great show heifer and awesome cow.

This fancy blaze female was one of my favorites as a calf. She has hit a bit of a growth spurt the last couple weeks, but when she catches up with herself, you will love what you have. The Magnetic Lady cattle get better with age and this one is no exception. A maternal sister just topped the Iowa Beef Expo Simmental sale in February. Look at that heifers picture and it will give you a good idea of whats to come for this one.

Lot 20 RUBYS JUANADA 9G56

Unfortunately, we lost the Cash Flow bull this winter. We just calved his first daughters and are most impressed. They are good looking females that calve by themselves, great udders and still bring a great set of EPDs to the table. You will notice in this offering we are offering some spring born females. We had some really bad luck with some semen last spring, and by the time we figured out what was going on, our clean-up bull had way to much work to do. Don't hold that against these girls, it sure wasn't their fault.

If you have talked to anyone who has calved Turnpike daughters, you already know what kind of cows they are making. If you don't have any, I invite you to add some to your operation. Our Turnpike daughters are some of the best females we have retained in quite some time, maybe ever. They calved unassisted, have great maternal instincts, great udders, and have been cycling back in short order. They cover all the basics of functional brood cows as well, good footed, big bodied, stout made, and good looking. These girls will be herd bull raising machines, yet have enough look to produce those fancy show heifers if bred to the right bull. These girls are straight out of the keeper pen.

As I mentioned in an open heifer footnote, the Absolut's may have been a bit before their time, but the time is right to own these three ladies. They are cool made with that added extension while being very angular and super sound. You can breed these girls lots of different ways, but they have had the ability to click with several different bulls in our operation.

If you believe in longevity, then tie into this bull. The cow family he stems from has been a cornerstone in our operation. Great calving ease figures with that big blaze face. Everyone loves those baldys!
